

SLAMP
THE LEADING LIGHT

CHARLOTTE

DESIGN BY DORIANA AND MASSIMILIANO FUKSAS

Charlotte was created from a world of illusion, from the challenge of turning a two-dimensional element infinitely multiplying shapes. The light resembles that of waves pulling away from the shore, leaving little illuminated drops behind. Charlotte's sculptural shape seems to be molded from a singular, industrious frame, much like honeycomb with its impalpable elements. Its concentric, hexagonal shapes allow for unending views.

LIGHT IS THE SOLIDITY OF ARCHITECTURE

“Interior design is an act of love destined for our buildings. Our architecture, much like lamps, is magically illuminated at night, and we firmly believe that both natural and artificial light are the solidity of architecture, the only elements that can wholly modify perception. Light is extremely important and precious, like a diamond whose pure facets emanate a spectrum of colours ranging from cool to pink”
